

OPEN LETTER TO WHOMSOEVER IT MAY CONCERN

It is with great pride that we have been singing the National Anthem of our country since childhood. Every music teacher at school has been painstakingly ensuring the quality of this great Anthem with sincere attention to the smallest nuance of lyric, music and also the prescribed tempo of the revered song.

Today, it pains me to hear the same song being played before every movie in theatres with an aberration. There is a sudden dip in the pitch halfway through and the audio quality is definitely not up to the mark. This has been my personal experience at theatres in Vizag every time I stand up with great joy in anticipation of being able to sing along once more.

As a musician, it is my humble responsibility to bring this to the notice of the concerned authorities. I request whomsoever is in charge, to immediately rectify this mistake and refrain from such an insult to our beloved 'JANA GANA MANA' and thereby to ourselves.

Thank you

Dr PANTULA RAMA
